

JASON CULLEN
"People not Politics"

Jason Cullen and Gloria Leustek are hard-working, middle-class individuals who wish to make a difference in the way this state government is run. With extensive experience of working with small businesses, Jason Cullen and Gloria Leustek have the knowledge of what needs to be done to make the changes in government that will return our state to prosperity. Cullen/Leustek is an independent ticket with core conservative values, motivation, and passion that combined aim to bring New Jersey Back to the People. New Jersey has seen, under decades of partisan Democratic/Republican leadership, the massive expansion of government that has been self-serving for the political parties represented.

A Cullen/Leustek Administration aims to progressively eliminate sales and corporate taxes and place power back into towns and cities to allow paths for their own prosperity. The Cullen/Leustek Administration also seeks to capitalize on state's rights to bring research, development, and manufacturing back to New Jersey soil with a goal of added state revenue, added jobs, and better opportunities to pay down state debt. While keeping all essential services, the Cullen/Leustek team plans to progressively reduce the role and size of state government which will, in turn, reduce the size of state budgets. Along with this, Jason Cullen wants to make use of the line-item veto to stop state funding of local projects and reduce the wasteful spending.

Jason Cullen and Gloria Leustek believe New Jersey cannot rely on political parties to fix what they broke in the first place. Jason Cullen and Gloria Leustek believe we must serve principles and people, not parties and politics. The Cullen/Leustek team has had enough of the Constitution being ignored. A Cullen/Leustek team believes that individual rights, liberty, and freedom should not be seized by the Government without the consent of the People as the Constitution is a contract between the Government and the People and the People must authorize anything to the contrary of what is provided by the Constitution.

A Cullen/Leustek team believes we must create an economic environment that makes all housing affordable; increases efficiency in our towns and cities; and makes higher education more affordable while increasing competition in public schools. Jason Cullen believes in providing universal tax credits to those who wish to privately educate their children. Jason Cullen also believes that the key to city restoration is to provide tax incentives to those who wish to invest in the revitalization of cities and allow new businesses to grow while re-employing those who have faced the hardships left by this latest recession. A Cullen/Leustek Administration is one of focus on badly-needed fiscal reform, responsibility, and development. They are of the People and not political insiders. They wish to bring a government of the People, by the People, and for the People. The question they ask New Jersey... "Have you had enough, yet?"
